

How to place the batteries

- 1 Untighten and take off the battery box cover on the bottom of the main unit, with a screw driver. Make sure you set the + and - polarity marking of the battery in the correct direction when placing the 3 new LR03 ("AAA"size) batteries. Set the battery from the - polarity marking side.

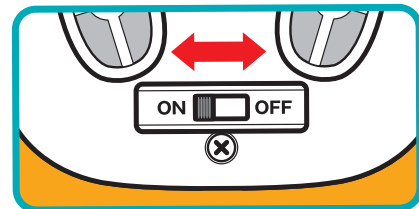

- 2 Insert the part ① on the lid indicated below, close the battery cover and tighten the screw.

Do not use old and new batteries or different batteries together.

How to play

- 1 The switch is on the bottom of Minion. Slide the switch to on! Minion will let you know when the power is on! (Please slide the switch to off when you finish playing.)

- 2 Talk to Minion! Minion talks or practices Kung Fu when you make a sound!
※Minion might not react well to short sounds.

- 3 4 kinds of actions! Minion moves up and down, swings around what he has in his hand, and practices Kung Fu!
